

## Tell Me

Au Revoir Simone

Places exist  
Just when we need them  
And times like this  
Just when we need them  
I never noticed before  
Seems that I was waiting for  
If we ignore all the signs  
Doesn't mean there won't be more  
Things are far out  
Electric is the air  
And farther out  
There's magic everywhere  
If we can see  
Everything that we could be noticing  
And really see we can wake  
From the scenes we're all dreaming
