

One Like You

Audio Adrenaline

All I have
Has come from love
I am blessed to be
Someone loved
Something good's got a hold of me

You forget
That I fall apart sometimes, I cave in
I remember it well
But You never bring it back again

So I sing
Sing a song from this mountaintop I'm on
See it clear, see it true
There could never be another One like You

Friends I have
Will they be here when I'm old and gray
Troubles come
Can I be sure they will fade away

All I do
Lord I want to be there next to You
Past the bullets and the bears
You have picked me up and
dragged me through
