

One Step Hyper

Audio Adrenaline

When I was young I had a blast boy
The ways of the past
They're cool they're fun they're good
But I wonder will it last
I don't know I don't think so
What we need is a little yo narly ho
So we yo we heave ho
We turn up the sound
We run around
We put a little juice in your town
We talk about the Lord and all that we found in him
You wonder what we do
We're aiming at you
We're bonified preachers
Spiritual snipers
Gonna take your soul

Now we're in the race
Gotta a reason for a rhyme
And a rhyme for a reason
With God's help we set the pace
We're Audio A
And we're in your face
Yeah your face and we ain't dissin
We're talkin about something you've been missing
Become like the man that you wish you were
You got a friend and you can be sure
The Lord God almighty faithful and pure
Full of power holy and true
Hit the streets get off your pew
Fight the fight till the fight is through
Now you know what you gonna do
Let's crank it up He died for you

Sometimes things just go too slow
You wanna run jump and dance and go
There may be times you want a beat
To move your head and not your feet
Fired up and ready the Lord is alive
So get your souls moving for a big joy ride
So let's kick it for the King
Lets open up and sing
Let's have a little fun as we crush the viper
Time to get
