

See Through

Audio Adrenaline

I'm unstable and extreme
good to bad , I've been burnt in between
the smoke from the fire in my soul
makes a transparent haze
There are things that I can't hide
that would make some people think I've lied
I try to do right but I fail
don't set your eyes on me

I drive all night to sing this song
but I don't even care
Some people want a piece of me
but I've got none to share

Don't you know that God loves you
Don't you know that I try too
I've been known to miss my cue
Don't look at me I'm see through

I would love to be made perfect
but instead I have the grace of God
you should look through me
and you will see what I want to be
