

## See Through

Audio Adrenaline

I'm unstable and extreme  
good to bad , I've been burnt in between  
the smoke from the fire in my soul  
makes a transparent haze  
There are things that I can't hide  
that would make some people think I've lied  
I try to do right but I fail  
don't set your eyes on me

I drive all night to sing this song  
but I don't even care  
Some people want a piece of me  
but I've got none to share

Don't you know that God loves you  
Don't you know that I try too  
I've been known to miss my cue  
Don't look at me I'm see through

I would love to be made perfect  
but instead I have the grace of God  
you should look through me  
and you will see what I want to be
