

All Sing Along

Audio Bullys

Coming move a breath to back this up
Really your needs getting knock
Switch lanes and.. hit brains
Coming move a string
It's on strange
The keyrange
No Fuggery
It's on to be done
Someone.. pass me a light
So I can burn hasj
Cause these fools irritate like a rash
I'm not in this shit to be flash
I was before, so that's that
Only gonna do it if it's really sounds fast
??? but ya blew it so there's no contract
No contact, foolish people
Stay back, cause it's needful
Stop crawling, like a beetle
New morning, new people
Soon shall, hotels
Get booked, by crooks
Don't look, you're almost stook
If you think it's a flock
I'm the captain, with the hook
Time to have a page in my book
Drinking pints with the stage of the kings
You'll never see my name when it rings
The drama, re-ring
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
This is the brand new thing
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
This is the brand new thing
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
This is the brand new thing
You'll probabely come just like I don't
And you never gonna see me if it's long
And I'm always gonna owe you if it's wrong
And that's just the way I'm going on
I never used to ask it was: go, go, go
That's because I knew I had a much better flow
You might see me after the show
But I really don't know
It's certified, we don't comply
We won't reply, it's smoke inside
That's never tried, it's always tight
Now let me check the level cause I never die
I can see much more, I'm specialised
You can flow it so but I won't reply

Cause saying your name will be helping you out, kid
And that's just not Mad Franky
You'll be fooling me up to thank me
But I won't even throw you a hanky
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
This is the brand new thing
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
This is the brand new thing
Mary Mary, the visionary
Throw these words so tight and scary
It's not been done so don't compare me
You're all just bums and fools and fairy's
Sometimes I don't feel satisfied
But my boys are on my side
Can you feel the patch through the pride?
You had another roll but you're hearing wide
Now you're slipping, on the slide
Janet's just seen and the whole thing died
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
This is the brand new thing
Now all sing along when I sing
Now all sing along when I sing
Now all sing along when I sing
This is the brand new thing
