

Shotgun

Audio Bullys

Everyone I ever knew who ever had a point of view
Told me to be careful of what the game will do to you
But it's been so long
And I've gone so far
And there's a shotgun to my head
Pull the trigger and I'm dying please don't pull it cos I'm fly
in'
Shotgun to my head

Every night and every day I'm thinking of a brighter day
And I know the landscape of our dreams will never fade away
