

# Way Too Long

Audio Bullys

Nobody's been comin' round your way  
Have you been hearing what they say?  
They were your buddies yesterday  
But you took too long to pay

Have you heard the latest news  
About a cat that got slapped and bashed and bruised  
Yeah, I wouldn't wanna be in his shoes  
Now the kid's got fuck all to lose  
Broken friendships too hard to mention  
Ran round in venture  
Only invention  
As we step from old to new  
Andy knows we always wanted to didgeridoo

All those kids who were your mates  
You've let them sitting on their hate  
When you're asleep or you're awake  
You cannot hide from your mistake

Has he checked the fresh tickets?  
Get my fuckin'  
money or you get my fuckin' fist  
Personality switchin' twitchin'  
Like the girls in the springer show bitchin'  
Boy's in major shit now  
Hasn't even got a little bit now  
Cuz he was out on the town  
Knockin' boots down  
Spendin' all his money  
And throwin' it around

Nobody's been comin' round your way  
Have you been hearing what they say?  
They were your buddies yesterday  
But you took way too long to pay

All the kids who were your mates  
You've let them sitting on their hate  
When you're asleep or you're awake  
You cannot hide from your mistake

Have you seen where Stevie's been?  
Well, I've seen him round the way,  
If you know what I mean  
Where?  
Well, he was at the club last night  
Drinkin' with a girl and she looked a bit alright  
What the fuck is he doin'?  
Spending all my money on a girl now im screwin'  
I only ticked him for a favor  
And he pays me back with that kinda behaviour?

And that just seems to be the way things go down  
Just enjoyment with a bird to an old motel  
Lets get paid lets just get paid

And that just seems to be the way things go down  
Just enjoyment with a bird to an old motel  
Lets get paid lets just get paid

And that just seems to be the way things go down  
Just enjoyment with a bird to an old motel  
Lets get paid lets just get paid
