

## #1 Zero

Audioslave

Listen now, let me speak  
I will be the dog at your feet  
And come along when you call  
Be the little bird in your straw and sing you a song  
I'll be there to take the fall  
Though you tread upon me for no reason at all

But just when you think you've left me blind  
I will keep you in the corner of my eye

I will never leave your side  
Though you call me your number one zero  
your nevermind  
I'll be your king, I'll be your pawn  
I will build a pedestal and put you upon it

But just when you think you've left me blind  
I'll be creeping right up behind  
Cause if I need to  
I will keep you in the corner of my eye  
corner of my eye

Down on the street, over your night  
Out of your sleep, out of your sight  
if I need to, if I need to  
Out of your mouth, in every word  
Down in your ego one thing is sure  
I will keep you, I will keep you

But just when you think you've left me blind  
I will be creeping right up behind  
Cause baby if I need to  
Lord, I will keep you in the corner of my eye  
I will be the bird in your straw  
But you won't get far  
I will keep you in the corner of my eye
