

Broken City

Audioslave

My city sleeps by the side of a freeway, the city scraps
And winter time she wore a yellow coat
Now there's nothin' on her back
If a building falls you wouldn't care to notice unless you were
in it
Then no one cares about climbin' stairs, nothin' at the top no
more

Outside trippin' in the broken city
Outside trippin' in the broken city, I watch a building crack
Outside trippin' in the broken city
Outside kickin' in the broken city, there's nothin' wrong with
that
Doo doo doo, doo doo doo doo, doo doo doo doo, doo doo doo doo

Now the snow falls down like it's fallin' on an ocean
Dead and empty by the railroad tracks where they used to go and
come
Now they don't come back
You can heal the rust, goin' up the throughways
Down the alleys where they stole this town from the frontier
I can see 'em tryin' to steal it back

Outside trippin' in the broken city (Outside trippin' in the br
oken city)
Outside trippin' in the broken city, I watch a building crack
Outside kickin' in the broken city (Outside trippin' in the bro
ken city)
Outside trippin' in the broken city, there's nothin' wrong with
that
Doo doo doo, doo doo doo doo, doo doo doo doo, doo doo doo doo
Doo doo doo, doo doo doo doo, doo doo doo doo, doo doo doo doo

Now the sun won't shine on this part of the map
Anymore
When it's cold outside I see it hide behind the smokestacks
No thin roses, no goldrush, no miner, no revolution they'd hire
And the shipyard is a graveyard, no one will be trying to find
him

Outside trippin' in the broken city (Outside trippin' in the br
oken city)
Outside kickin' in the broken city, I watch a building crack
Outside trippin' in the broken city (Outside trippin' in the br
oken city)
Outside kickin' in the broken city, there's nothin' wrong with
that
Doo doo doo, doo doo doo doo (There's nothin' wrong with that)

Doo doo doo doo, doo doo doo do (Outside trippin' in the broken
city)

Doo doo doo doo, doo doo doo doo, doo doo doo doo, doo doo doo
doo
