Jewel of the Summertime

Audioslave

When I was 18 I didn't know pain when the sun was high Burnt face, shadow's erased and I knew I'd be alright Left that behind me, uh-huh Somethin' blinded me, uh-huh You're reminding me, uh-huh Of a better space and time, miles away

The jewel of the summertime Jewel of the summertime A jewel of the summertime A jewel of the summertime Jewel of the summertime

When I turned 21 I saw the sun pulling out of sight All that I met were dark silhouette's stumbling in the night Then we collided, uh-huh And I finally, uh-huh Got a light on me, uh-huh Now I'm bathing in the bright ultraviolet rays

Jewel of the summertime Jewel of the summertime Jewel of the summer-time A jewel of the summertime Jewel of the summertime Jewel of the summer-time Time, time

I left that behind me, uh-huh But somethin' blinded me, uh-huh You're reminding me, uh-huh Of a better space and time, miles away

Jewel of the summertime Jewel of the summertime A jewel of the summer-time A jewel of the summertime A jewel of the summertime A jewel of the summertime Jewel of the summertime Jewel of the summertime Jewel of the summertime Jewel of the summertime
