

We Got the Whip

Audioslave

Ooooooooooooh
Ooooooooooooh
Ooooooooooooh
Ooooooooooooh

Long days and nights you fought for truth
Gotta hand it to you
Uprise and paid for in blood
Only to love
We're gonna hang you up
You've got balls but.....

We got the whip
we got a better bomb
We got the whip
We got the whip
we got a better bomb
(2x)

Ooooooooooooh
Ooooooooooooh

Heartache and strife is all you've known
A slave since your youth
And only one life to bargain with
Admiration is due
We're gonna string you up
You've got balls but.....

We got the whip
we got a better bomb
We got the whip
We got the whip
we got a better bomb
(2x)

Yeah

Fearlessness in the face of death
Pain with a smile
Braving the fight until the end
I know I will never be anything like you

We got the whip
we got a better bomb
We got the whip
We got the whip
we got a better bomb
(2x)
