I Can't Breathe

Audiovent

You want to feel me Can't defeat me at your game You buy and sell me Separate me from my name

And I want you To once invert the wrong Cause I can't breathe And I want you To once admit I'm right

You come with something But it's nothing that I need You violate me Have to break me to breathe

And I want you To once invert the wrong Cause I can't breathe And I want you To once admit I'm right

You point your finger I'll play that game With you, with you I just can't beleive Things we say

And I want you To once invert the wrong Cause I can't breathe And I want you To once admit I'm right
