

# Hold Me

Audiovision

I have been drifting alone  
Searching for someone to hold  
To give me shelter all through the storm  
When the world is so cold

Watch out  
Beware  
Invisible forces around me  
All through the night and into the dawn  
Can you hear me

Hold me, Lead me  
I need your love to survive  
Hold me, Lead me  
Without you I'm gonna die

I have been running my race  
Been fighting this mountain so long  
The darkness is trying to drag me down  
I have to be strong

For where your treasure is  
here will your heart be also
