## **Blackhearted Visions**

## **Audrey Horne**

We've got to save this last ignition To detonate our blackhearted visions

This aggresion comes as salvation This burst into every conversation Slow down!

Unleash a united frustration You can't stop a divine intervention Slow down!

We drop like a bomb Detonation! On like a storm No hesetation!

Kill me, kill me, kill me, kill me My name is aggrevation

Drop it down, drop it down, drop it down

Drop it down in their front yard

We are the center of the storm Just kill it all We are the center of the storm

This aggresion comes as salvation This burst into every conversation Slow down!

Unleash a united frustration You can't stop a divine intervention Slow down!

We drop like a bomb Detonation! On like a storm No hesetation!

Kill me, kill me, kill me, kill me My name is aggrevation
Drop it down, drop it down, drop it down
Drop it down in their front yard

We've got to save this last ignition To detonate our blackhearted visions We've got to save this last ignition To detonate our blackhearted visions
