

# Deathhorse

Audrey Horne

Put my girl on the line  
The morning lights are one  
They resent her sweet love  
She'll throw them all out  
She leaves a rope by the door  
It's a way to keep them on their toes

Kiss them all away for me my dear  
Ride in on your deathhorse & save me  
I know  
I know  
Ride in on your deathhorse  
I know  
I know you

Put my girl on the line  
It's cold in here  
and you've got black-stained teeth from chewing coal hearts  
She leaves a trail of dead behind  
With the morning light it's safe to go outside

Kiss them all away for me my dear  
Ride in on your deathhorse & save me  
I know  
I know  
Ride in on your deathhorse  
I know  
I know you

Got to find a way to kill the white horse  
Kiss'em all away with your deathblow  
Make'em go away, make it safe again  
Baby brought a gun to a knife fight  
Leave a trail of dead behind as a warning sign  
I've got to get my girl on the telephone

Kiss them all away for me my dear  
Ride in on your deathhorse & save me  
I know  
I know  
Ride in on your deathhorse  
I know  
I know you

Kiss them all away for me my dear  
Ride in on your deathhorse & save me  
I know  
I know  
Ride in on your deathhorse  
I know  
I know you
