

## HNFR (Hell Naw Fuckin' Right)

August Alsina

Holograph babe, it didn't work out  
Now you feel played, your feelings hurt out  
I didn't mean to do it but you knew what it was  
But you went on pretendin' that you and me is us  
Now you think I'm acting different, sayin' I'm a stranger  
They say I'm self destructive and I hate to forget ya  
But really I'm just livin' the rest is I have no hoe  
If you didn't like me thinkin' me, gon really hate me now  
Cause I got bitches on the side, on the slide to whateva  
The just want me for the night but you want me foreva  
I ain't ready for commitment, girl I got a hit list  
Got it grabbing bulls that said I wouldn't be 'bout shit  
But you could see where I'm comin' from cause I got a heart  
If my life was a movie I wish you would play a part  
And if you do it right then one day you can be the star  
But if you need the relationship, the conversation starts with  
a hell na

Hell na hell na hell na hell na hell na hell na  
Hell na hell na hell na hell na hell na hell na
