

# NOLA

August Alsina

[Intro:]

West bank, down town, up town  
Back in town, king of the city  
New Orleans we in this bitch, you heard me man

You don't know about where I'm from  
N O, in the air, gun smoke  
Down town where my people  
Know some niggas that kill for  
Since night hard on the boulevard  
Bodyguards need bodyguards  
In my city, it's too hard  
Everyday around here ain't Mardi Gras  
When you got your visa, you might get your chain snatched  
Just might get you kidnapped  
Don't act tough, don't get clapped  
That don't mean applaud, that mean life gonna be on hard  
When them choppers start to spitting  
Best believe they won't be missing  
Out here niggas hustle, out here niggas grind  
Out here niggas muscle, just so they can shine  
I ain't gonna lie dude, in this here Bayou  
For that bank roll, niggas gonna trap you.
