Empire

August Burns Red

Skyscrapers, earth movers, ground breakers Our buildings rival the heavens, our bridges span the seas Ingenuity? is so cunning, innovation is not ours, creativity is a luxury We build with our hands what we have in our hearts

Fight the avalanche, you'll be buried every time We run and run and run, keep falling behind Fight the avalanche, you'll be buried every time We run and run and run, always last in line

Before lines were lines Before time was time The author wrote a story in the sky And earth below

Little do we know we have only what we're given Light up the sky, we're going where no man has ever gone Little do we know we have only what we're given Light up the sky, we're going where no man's forgotten

All You are is all we want, it burns inside us all We're finding heart in giving soul We're walking home into thin air singing

We are justice fighters with faces of fire Many walk away,? but we stand firm We are justice fighters with faces of fire Our decisions affect our descendants We are justice fighters with faces of fire

Skyscrapers, earth movers, ground breakers Our footsteps, bringing purpose, changing history Skyscrapers, earth movers, ground? breakers Our footsteps, bringing purpose, changing history
