

# The First Step

August Burns Red

Without competition  
There is no progression  
Society won't wait for statues  
To break free of their brass case

Carry the point  
Be the focus  
Notice the inevitable  
Times make changes  
Humanity makes mistakes  
Mistakes make answers  
We live to learn

We live to learn  
We live to love  
We live to die  
Learn to question why

WHY?  
We're so scared  
To take the first step.  
So scared,  
WHY?  
We're so scared

The ground you walk on  
Isn't a straight line,  
And neither are the toils of life.  
Standing still,  
Just to watch it pass you by  
To watch the world pass you by

We are pushing for change,  
Waiting for the world to take notice.  
Breaking down barriers,  
As we strive for a better way.  
With determination we'll march on in protest.  
With determination we'll see this through.

Evolve or die.  
Move on or drown.  
EVOLVE OR DIE,  
MOVE ON OR DROWN!

History's greatest generation  
Will be removed by the Earth's most advanced.  
Your battles will become our peace,  
Your lies shall become our truth.  
We will replace the old cards with the new.  
Your battles will become our peace,  
Your lies shall become our truth!

Without competition  
There is no progression.  
Society won't wait for statues  
To break free of their brass case.  
Evolve or die!
