

Bullets

Augustana

Come fly down, like a singing bird
Sings your name, I am still the same,
Black and white, no you're not to blame,
Holly sweet...put me down to shame...

Lights in the car in the park,
I'm falling on my face I know who we are...
And I ain't looking down for the rest of the night
A bullet in my head ended late last night...

Jack and coke, please take off your coat,
Come and smile, please stay here a while,
Come and dance, shuffle with a glance,
When you're gone, bring in for the dawn...

She's shaking in the car with the gun in her hands,
Falling over love and a sweet romance,
And I ain't never thought it could come down to this,
A bullet in my head, with the sweetest kiss...it's in my head

It's in my head
My head
I know

She's shaking in the car with the gun in her hands,
Falling over love and a sweet romance,
And I ain't never thought it could come down to this,
A bullet in my head
My head
My head

It's in my head
It's in my head
Now it's in my head
It's in my head
Now it's in my head
