

# Masterpiece

Aura Dione

I want to show you who I really am  
So that we can get down, down, down, down  
I have a little golden bird inside  
It starts to sing when you're around, round, round, round

Tell me all your dreams  
Your brain is beautiful  
You are full of light  
Don't be afraid to try

Baby you're a masterpiece  
Thousand years of poetry  
I just wanna scream your name  
You're a killer fantasy  
Celebrating mystery  
I want you to feel the same

I wanna get to know you, talk all night  
So that we can get down, down, down, down  
Your melodies come from an open mind  
No playing tricks when you're around, round, round, round

Tell me all your dreams  
Your brain is beautiful  
You are full of light  
Don't be afraid to try

Baby you're a masterpiece  
Thousand years of poetry  
I just wanna scream your name  
You're a killer fantasy  
Celebrating mystery  
I want you to feel the same

You're rockin' every dream  
The best thing I've ever seen  
Now this is the time  
To let the fairytale outside my mind

Baby you're a masterpiece  
Thousand years of poetry  
I just wanna scream your name  
You're a killer fantasy  
Celebrating mystery  
I want you to feel the same

Baby you're a masterpiece  
Thousand years of poetry  
I just wanna scream your name  
You're a killer fantasy  
Celebrating mystery  
I want you to feel the same
