

## Recipe

Aura Dione

Hold me like I'm a baby  
I will always be safe in your arms  
All fell in and I am dreaming  
I'm humming my way to the stars

I can reach the stars from where I am  
I can reach the stars from where I am

Tell me, what is the recipe  
Secret of eternity  
No more love me or leave me  
Not a year  
Not three or four  
Forever is in my heart  
With you evermore

Stand by me I am your baby  
You will always be safe in my arms  
This season I don't think about reasons  
I just wanna lose it and wish upon a star

I can reach the stars from where I am  
I can reach the stars from where I am

Tell me, what is the recipe  
Secret of eternity  
No more love me or leave me  
Not a year  
Not three or four  
Forever is in my heart  
With you evermore  
Uuh uuh uuh uuh

Uuh, we can take it far  
To the morning star  
Thousand children laughing in your eyes  
Uuh, you were made for me  
Baby can't you see  
Endless sky is filled with butterflies

Tell me, what is the recipe  
Secret of eternity  
No more love me or leave me  
Not a year  
Not three or four  
Forever is in my heart  
With you evermore  
Uuh uuh uuh uuh
