## **Purification Of Hell**

Gates of madness Gates of harm I long for yor endlessness And to feel your blades

Vast sceneries drenched in blood A thousand fires that reek of death Halls of torment - let us in! We'll show them pain

Nightwarriors, I summon thee It's time for bloodshed Come on and rape the daylight I want whores and untrue sons of Satan Dead

Eternal furnace fire-The only light I need No lambs of christ could take me higher-It's in hell that I must bleed
