AURORA

I'm growing tired and I'm growing old  
And the road I walk, I walk alone  
And I wonder if and I think I might  
Take a look, take a look on the other side

For five days I will walk away  
From the lonely life, I am done with pain  
And I wonder if and I think I might  
Take a look, take a look on the other side

Just one look

All my demons  
Greeting me here as a friend  
Oh...  
I'm home  
Waiting for time to let go  
Peace in my body and soul  
Oh...

Oh, oh

Born to live  
And I know I've tried  
To keep myself in peace with time  
Without control at all in life  
I'll be fine, I'll be fine on the other side

Pack my bags  
I know the road  
I write the words and here I go  
Towards the peace I need to find  
I'll be fine, I'll be fine on the other side

All my demons  
Greeting me here as a friend  
Oh...  
I'm home  
Waiting for time to let go  
Peace in my body and soul  
Oh...

I meet the eyes  
I recognise how they have changed with time  
I find myself surrounded by a coffin in the night  
I meet the eyes  
I recognise how they have changed with time  
I find myself surrounded by a coffin in the night

All my demons  
Greeting me here as a friend  
Oh...  
I'm home  
Waiting for time to let go  
Peace in my body and soul  
Oh...

I meet the eyes  
I recognise how they have changed with time  
I find myself surrounded by a coffin in the night

Oh  
Body and soul  
Oh...  
Oh, oh
