Aus-Rotten

ATF, ATF, we don't need the ATF
There's an organization with dangerous views so the fighting so
on erupts
We could've asked what they believed if they hadn't been blown
up
But were their views dangerous to the people or the state
Did they know the truth about the government based on hate
ATF, ATF, we don't need the ATF
Their twisted reign of terror is the cause of many deaths
It's their twisted reign of terror that you willingly accept
Appointments made by Janet Reno help the blood-soaked ATF
Like Mark Richard who's made his life's career by covering up w
hat's left
They claim it's national security so the publice never see
That this secret service bullshit's at the expence of you and m
e
ATF, ATF, we don't need the ATF
Their twisted reign of terror is the cause of many deaths
It's their twisted reign of terror that you willingly accept
If you cross our government then you may just disappear
And become another statistic for the rest of us to hear
If you keep on looking closer you may just find your death
Compliments of our government and bastard
ATF, ATF, we don't need the ATF
