

# Loving You Is Easy

Austin Mahone

We were lost in the middle  
Like bottles in the ocean  
But we found one another  
Like the answer to a question  
Like words to a love song  
Like a river to the red sea

Finding you was so hard  
But loving you is easy

Loving you is easy  
Loving you is easy

Finding you was so hard  
But loving you is easy

We were lost in the middle  
Like bottles in the ocean  
But we found one another  
Like the answer to a question  
Like words to a love song  
Like a river to the red sea

Finding you was so hard  
But loving you is easy

Loving you is easy  
Loving you is easy

Finding you was so hard  
But loving you is easy

Love with you  
I'm in love with you (6x)

Finding you was so hard

I think I finally found the one  
Here comes the change  
I think the change has just begun  
I'm not the same

I think I finally found the one  
Here comes the change  
I think the change has just begun  
I'm not the same

I think I finally found the one

We were lost in the middle  
Like bottles in the ocean  
But we found one another  
Like the answer to a question  
Like words to a love song  
Like a river to the red sea

Finding you was so hard

But loving you is easy
