

# On Your Way

Austin Mahone

It's 3 in the morning and everybody already in bed  
We're tired and we're yawning but I got something else in mind instead  
Cause I been trying to hold these urges back baby all day  
We're hand in hand, body on body  
I still want you in my space

So we can do it your way, way, way, way, way  
I just want your body on me, me, me, me, me  
Cause you got me like ooooo ooooo  
I just wanna love you till you're on your way

So tonight  
I'm gonna rock you like a baby tonight  
I'm gonna love you every second your mine  
We can go until the morning  
I just wanna love you till you're on your way  
I just wanna love you till you're on your way  
I just wanna love you till you're on your way  
Tonight  
I'm gonna rock you like a baby  
I just wanna love you till you're on your way  
Your way, yeah

I lay back and watch you hoping that you're gonna wanna stay  
But you're such a hustler and I know you gotta get your pay  
I just wanna love you like this was the last time  
The time with you has been a dream  
Tonight let's live out everything

So we can do it your way, way, way, way, way  
I just want your body on me, me, me, me, me  
Cause you got me like ooooo ooooo  
I just wanna love you till you're on your way

So tonight  
I'm gonna rock you like a baby tonight  
I'm gonna love you every second your mine  
We can go until the morning  
I just wanna love you till you're on your way  
I just wanna love you till you're on your way  
I just wanna love you till you're on your way  
Tonight  
I'm gonna rock you like a baby  
I just wanna love you till you're on your way  
Your way, yeah

Well I'm afraid this is turning to something  
Something I don't feel that often, wanting  
I've been trying to fight back these urges  
That isn't working  
Your name is all in my searches  
I think that we waited long enough  
I think that this love feels strong enough  
I think I dealt with your mom enough  
I think that I wrote you songs enough  
Did what you want enough  
Turned you on enough

I want you to tell me if this feels wrong or something girl  
I want us to get past the basics  
I think I know where we can take it  
Cause I can show you a few me and you things  
I'm really in love with the way your hips and your mood swings  
Makes it all the better when we making up  
And we can do it all again while you waking up

So tonight  
I'm gonna rock you like a baby tonight  
I'm gonna love you every second your mine  
We can go until the morning  
I just wanna love you till you're on your way  
I just wanna love you till you're on your way  
I just wanna love you till you're on your way  
Tonight  
I'm gonna rock you like a baby  
I just wanna love you till you're on your way  
Your way, yeah
