

# Say My Name

Austin Mahone

Stop  
Starting to think that you're all talk  
We both know why you're here and what you're waiting for  
Tonight (yeah)  
Wait  
It's getting kinda late and you should stay  
You're nervous I can tell by looking in your eyes

It's alright  
We talk about it, don't talk about it, no talk about it, no more  
Let's be about it, we'll get it poppin, girl get it started, let's go  
And I'll give you whatever you like

Say my name  
Ain't no time to play  
It's not a game  
I feel some type of way  
I don't want nobody's body baby if it's not your body on mine

Watcha say  
Ain't no time to waste  
Another day  
I can never wait  
Cos the time is right  
There's nothing like when your body is right next to mine  
Say my name tonight

Baby cut the lights down low  
And I'm gon' treat you like you never felt before  
Tonight  
Breathe  
Baby girl I know you got your needs  
And I'll make it my mission to make sure you're pleased  
It's on me

We talk about it, don't talk about it, no talk about it, no more  
Let's be about it, we'll get it poppin, girl get it started, let's go  
And I'll give you whatever you like  
Say my name  
Ain't no time to play  
It's not a game  
I feel some type of way  
I don't want nobody's body baby if it's not ur body on mine

Watcha say  
Ain't no time to waste  
Another day  
I can never wait  
Cos the time is right  
There's nothing like when your body is right next to mine  
Say my name tonight  
Let me hear you say (just say my name)

Hands wrapped round your waist (were face to face)  
Won't let this moment fade (won't let it fade)  
Just say my name  
I won't let it go (won't let it go)

Let me take control (it's not a race no)  
I'm gon' love you so (I love you baby) (say my name)

Say my name  
Ain't no time to play  
It's not a game  
I feel some type of way  
I don't want nobody's body baby if it's not ur body on mine

Watcha say  
Ain't no time to waste  
Another day  
I can never wait  
Cos the time is right  
There's nothing like when your body is right next to mine  
Say my name tonight
