

# The One I've Waited For

Austin Mahone

I built my walls up high  
But now they're falling and you're the reason why  
And with you I'm not alone  
Cause you are the one I've waited for  
But my heart's been locked away  
I hid inside just so I'd feel safe  
I'll give in, won't be afraid  
Cause you are the one I've waited for

With this love, this love, this love  
With this love, this love, this love  
I've been searching so long for a feeling like this  
Cause you are the one I've waited for  
Girl you are the one I've waited for

I said when the time is right  
I'll meet that someone that'll make me shine  
And right now that time has come  
Cause you are the one I've waited for  
I guess you have waited too  
To fall in love with someone that's true, yeah  
So tonight, don't let it go  
Cause you are the one I've waited for

With this love, this love, this love  
With this love, this love, this love  
I've been searching so long for a feeling like this  
Cause you are the one I've waited for  
Girl you are the one I've waited for

And will you believe?  
I can be all you need  
I won't ever leave  
It may be you and me for eternity  
Cause you are the one I've waited for

With this love, this love, this love  
With this love, this love, this love  
I've been searching so long for a feeling like this  
Cause you are the one I've waited for  
Girl you are the one I've waited for  
(2x)

Yeah, you are the one I've waited for
