

## Angel In Your Eye

Austra

I'm a chemical reaction and my elements are aligned  
Baby if I hadn't known you, then I couldn't even start the fight  
It's just scared in the walls, looking for a way in  
Let me up inside you, or wandering eye

I need it  
I need it  
I need it  
I need it

Dug a magnet, a sentence uncorrupt  
You took all my dignity, you placed it with a hand  
tears are warm  
To lose your  
I need it  
I need it  
I need it  
I need it
