

I Love You More Than You Love Yourself

Austra

Now there's nothing in your soul tonight
I only see darkness
And now there's nothing in your soul tonight
I only see darkness

Too passed out digging ghosts
Shakes up what you didn't know
Proceeding, try a little bit harder, baby
You're different
You're a stranger to what makes you feel good

I love you more than you love yourself
I love you more than you love yourself

On top of our feet
Pulling out the nails
In a moment of calm
Still feels good and it's been so long

Now there's nothing in your soul tonight
I only see darkness
And now there's nothing in your soul tonight
I only see darkness

Too passed out digging ghosts
Shakes up what you didn't know
Proceeding, try a little bit harder, baby
You're different
You're a stranger to what makes you feel good

I love you more than you love yourself
I love you more than you love yourself
