

We Were Alive

Austra

Waking up, got somewhere to go
I'm making sweat fall

Step in line, do it hard enough
To bring your color back

Got no time to waste
'Cause I'm poor and
If I get something good
I'm gonna take it
I shouldn't laugh but I feel it
I'm inside
I am moribund
It's what you want: torpidity
But I sigh

What if we were alive?
What if we were alive?
What if we were alive?

He knows, it's true
I believed nothing before

I've been living in a garden
Distant, I was in a fortress

Those tough walls crumbling and I think I see
How we've been cheated, the lies

It's like we were alive
It's like we were alive
It's like we were alive

Doctor, what's the cure for apathy?
Come and pick me up

It's like we were alive
It's like we were alive
It's like we were alive

It's like we were alive
It's like we were alive
It's like we were alive
