

Come on I'll take you on a journey through the mind of a madman
With the common misconception that he's got an ace in his upper
hand

Sees 20/20, but as blind as can be
Why's everybody always picking on me?
When insecurity comes a-
knockin' it plans to take you for a ride
It doesn't come so easy with the devil by its side
Frustration, non-friction, this vixen, you lose
Ah come on lets face it no one's picking but you

She'll take your lovin' and leave you feeling so confused
She'll take your lovin' boy there's nothing more that you can d
o
She'll say that she wants to be with you, she wised you were de
ad
She's fucked with your mind, now she's got in your head
What more now can you say?

What she'll say not always what she'll do
Watch out for things she's never gonna tell you
What she'll say not always what she'll do
Watch out for things she's never gonna tell you

Now jump back baby girl you'd better believe it
You've got the bull by the horns like it as just open season
Faked me out again, but I watch your true colors show
Because where I'm standing from, hell nobody knows
Can you feel it? It's real
You've got me now
You've taken over, taken off, and taken me down
Through your mind running through your soul
With every look like daggers piercing girl you just don't know

She'll take your lovin' and leave you feeling so confused
She'll take your lovin' boy there's nothing more that you can d
o
She'll say that she wants to be with you, she wised you were de
ad
She's fucked with your mind, now she's got in your head
What more now can you say?

The secrets of a madman, what can you say?
What she'll say not always what she'll do
Watch out for things she's never gonna tell you
