

# Movement

## Authority Zero

There's a movement, whatcha been through?  
Just watch what you'll become  
Times are changing. Sit and waiting  
They're ready to knock down your front door  
While you sit there anticipating, it was right there all along

Bright sunny days, lying ahead  
Peeking through the cracks  
Nothing more being said  
There's a movement, an underground affair  
Underneath the surface, a network aware  
Making a big sound through the sound system blare  
We're speaking to the youth and now we're shouting through the air and  
Everybody's moving, yeah all are gathered around  
They quit the sudden movements it's time to shake you up and down

Now we're stomping to the beat yeah, rally 'round the streets yeah  
Screaming through the feedback  
On and on and on and oh were moving, moving through the air  
Oh we're moving on n underground affair

There's a movement, whatcha been through?  
Just watch what you'll become  
Times are changing, sit and waiting  
They're ready to knock down your front door  
While you sit there anticipating, it was right there all along

Rally, rally, rally around unpopular one  
Breathe in deep as it pierces your lungs  
Unified relation, shouting straight from the heart  
Searching for release, yeah right from the start  
Rejuvenation, yeah this is where we meet  
Where we lose all our minds and we stomp our restless feet  
This is where we do this, yeah this is where we run  
This is where we go, where we become one

Stomping to the beat yeah, rally around the streets yeah  
Screaming through the feedback  
On and on and on and oh were moving, music through the air  
Oh we're moving on, an underground affair

There's a movement, whatcha been through?  
Just watch what you'll become
