

Sirens

Authority Zero

Sirens in the streets under pressure, woah! (8x)

Take a step outside of my front door
It's about 110
And once again my shoes become concrete

Everybody says "now J, it's just a headtrip
Everything is alright."
But don't you know that I know something I must say
And it's on through the night
and I know deep inside
that something evil stands in the way
Sing it all through the night
Through these hot summer streets
And take no for an answer?
no I'll never walk away

Sirens in the streets under pressure, woah! (4x)

Over the airwaves
Through the static
from the top of the tower
Sirens echo out across the land
throughout the world a ruckus forms down
through the backalley streets
let's break the silence
sirens sound as we stand
And it's on through the night
through these hot summer streets
on and on and nothing stands in the way
Sing it all through the night
Through these hot summer streets
and not for no good reason
it's for something we must say

Sirens in the streets under pressure, woah! (4x)

Sirens in the streets...
Sirens in the streets...
Sirens in the streets...
And they're coming for you!
Under pressure

Sirens in the streets under pressure, woah! (8x)
Sirens
