

Underrated

Autopilot Off

I waited patiently for you to come around,
and I sacrificed my sanity to keep from breaking down.
I always thought of you and forgot about myself,
but the only one you care about is you and no one
else.

I used to be so naive.

You never cared about me.

Now I see that I can't achieve everything that you
want from me.

Honesty was all I asked but you just let me down.

Countless times I gave you the benefit of the doubt.

You think that I'm a fool and you'll get away with it.

This time I'm not so willing to forgive and forget

Feeling unappreciated

Dedication? Understated.

Everything is so complicated,

I think that I'm underrated.

You said you could handle it.

You said "Go ahead and quit".

Now you'll finally get your wish,
so just try not to choke on it.
