

# Voice in the Dark

Autopilot Off

If there's a light leave it on  
If there's a way  
Some how thin airs taken your place

Get over  
Nights coming on  
Its getting late  
I hear my heart starting to break

And I'll wait for you  
Faith is just a promise  
I will wait for you  
With places that are haunted  
I'll be there

I walked for miles on and on  
Searching in vain  
A voice in the dark  
Calling your name

I dreamt walls of fire rising up  
Stood in the way  
Tempered my soul walking through flames

And I'll wait for you  
Faith is just a promise  
I will make for you  
In places that are haunted  
I'll wait for you  
Faith is just a promise  
I will make for you  
In places that are haunted  
I'll be there

I wanted to believe (I wanted to believe)  
In more than I could see (in more that I could see)  
Each breath I take (each breath I take)  
A leap of faith  
Waiting to come down

If there's a light leave it on  
If there's a light  
If there's a light leave it on  
If there's a light

And I'll wait for you  
Faith is just a promise  
I will make for you  
In places that are haunted  
I will wait for you  
Faith is just a promise  
I will make for you  
In places that are haunted  
I will wait for you
