

Slaughter At Beast House

Autopsy

You'll be slaughtered by the beast

Deep inside the shadows lies the cellar
Where the beast emerges
Filth of legend pale and foul
You'll satisfy it's hellish urges

You'll be slaughtered by the beast

Years long ago when the creature arrived
The slaughter was brutal, just one left alive
A new breed of victims moved into this hell
Murders of innocents quickly befell

Again there was one left alive like before
She soon was turned into the beast's willing whore
A slave to it's hideous mutated sex
She'd kill for this unholy cannibal wretch
