

# Spill My Blood

## Autopsy

Spill my blood  
Our blood it comes from the same line... spill my blood  
Still I should have seen all the signs... spill my blood  
You're a double crossing cunt... spill my blood  
I'll carve you, maim you, shape, shame you... spill my blood

You won the only battle  
But still you lost the war  
Now it's time you die  
You fucking whore

Spill my blood... spill my blood  
Not from my body, but from yours... spill my blood  
I want to see and taste some more... spill my blood  
Not from my body, but from yours... spill my blood

You won the only battle  
But still you lost the war  
Now it's time you die  
You stupid whore

Spill your blood

As you die I celebrate  
A bloody mess of you I make  
For you, now it's too late  
I spill your blood for fuck's sake

Spill my blood
