

# The Eyes Of Deception

Autumn Tears

LIAR!  
DECEIVER!  
BETRAYER!  
HYPOCRITE!

Scream out my name  
As I ravish the life from all that you love  
Before your very eyes  
Through me, they shall reap their vengeance  
And regain their destiny

Fate now sides with us...  
Watch helplessly as we deliver the gift of death

But not for you, my dear foolish sister  
No! But not for you!

Your fate shall be far less merciful...  
Taste our kiss for now and ever  
And live amongst what you have created  
And what you have become...
