The Eyes Of Deception

Autumn Tears

LIAR!
DECEIVER!
BETRAYER!
HYPOCRITE!

Scream out my name
As I ravish the life from all that you love
Before your very eyes
Through me, they shall reap their vengeance
And regain their destiny

Fate now sides with us... Watch helplessly as we deliver the gift of death

But not for you, my dear foolish sister No! But not for you!

Your fate shall be far less merciful... Taste our kiss for now and ever And live amongst what you have created And what you have become...
