## Pray For Me...

Autumnia

Time is remain... it is simple we go away Our lives by one instant fly by through eternity Remember me the same as you see me now... for ever What to recollect me when we'll meet again

... and God leave my hand In order to forget me for ever Pray for me before dug tomb You see, I was your last dream

Any more there will be no light: The sun never will rise again And you more never will hear the words of my frankness

It is time to depart... there, whence there is no return...
... and you will not keep me...
... Never...

But remember one: by this song I shall live in you... Eternally

Pray for me...
