

Blood Of Bacchus

Ava Inferi

Above
From heavens above
Stardust pour down
Blindfolding me
Rejoicemoment of joy
Love fills this void
Boiling my blood
Ecstasy is taking over.

Curse my acts in the bright of day
Gods and fairies, blood of Bacchus
Curse our acts and whatever we say
Come closer / Reveal Thee / Within me
A second / Eternal / Ecstasy

Do you hear
The pulse in your veins
Releasing this chains
Forget all your pains
Freedom
Our precious state of mind
Poisoning your kind
The secrets of the wine
When the moon shines again
Leave your fears, leave your faith
Feel the warmth of its light
When the moon shines tonight
Essence flow, through the skies
Feel the warmth of its light
Ecstasy is taking over.

Curse my acts in the bright of day
Gods and fairies, blood of Bacchus
Curse our acts and whatever we say
Come closer / Reveal Thee / Within me
A second / Eternal / Ecstasy
