

## Colours Of The Dark

Ava Inferi

As winters pass us by,  
Rising shadows block the sun  
Relief has held me high.  
In all this dark i see, in all this dark i feel  
Rising  
Drifting  
Silence - Seeking me

All the misery  
Years of hope are lost eternally  
Stained by this essence of grief  
Holding on, doing my best to be me...

In fog i hide my tears,  
Frozen by a time long gone  
Fears have kept me down  
In all the dark...

All the misery  
Years of hope are lost eternally  
Stained by this essence of grief  
Holding on, doing my best to be me...

And all the colours melt into shapeless darkness  
"Shapeless angels"  
In all the darkness innocence remains  
"Through the essence"  
Innocence remains  
Relief / Holding / The hope / For a bright day  
Bringing / Despair / To the ones who wait  
Breathing / All the / Colours / Of the darkness  
Turn them into my own light

All the misery  
Years of hope are lost eternally  
Stained by this essence of grief  
Holding on, doing my best to be me...
