

## Hope

Avail

A candle in a window  
Lonely sign of life  
Will there be some truth inside  
Or just another knife  
Her silhouette empty  
Face is hollow inside  
Shadows caused by candle light  
Have no depth or pride  
A candle in the window  
Flickers through the night  
If it ever burns down to the base  
The world will see no light  
For light is a creation  
With no light you can not see  
Oh for thousands that have lived in  
The dark  
The light will set them free
