

## Versus

Avail

Silence, silence all sides  
Raw with indecision  
Without the mind to congregate  
In fault the line extends  
To further burden divided friends  
Silence all sides  
Why bother to defy when we still can't unite  
So put your fist down until sanity can be contained  
We burn out before we fade away  
Losing time and not changing anything  
Burn out we isolate,  
Rather stand alone than divided

Stuck on lines deplete  
Chant slogans timed one step off beat  
Full loss of common sense  
When passion becomes status end  
Silence, silence all sides  
Why bother to defy when we still can't unite  
So put your fist down until sanity can be contained  
What's been said has spread like fire to all  
It takes no strength to pass blame  
We burn out before we fade away  
Losing time and not changing anything  
Burn out we isolate  
Rather stand alone than divided
