

## Lost World

## Avalanch

Here we go  
Right to the sky  
And breaking the silent  
To a place  
Where I know that we'll live  
Without pain and without lies  
Without sorrow and without cries

Cause I saw  
More people dying that you can imagine  
My dream world  
Is a long way from here  
Through the mountains, through the earth  
Through the oceans, through your heart

So many years  
Trying to break free  
Trying to understand, why?  
Fight

Long way from here  
Do it without fear  
Trying to understand, why?  
Fight!

Still we go  
Right to the sky  
And breaking the silent  
Take your love  
And come with me  
To the place where I've been waiting  
For the day I'll take your hand

Cause I saw  
More people dying that you can imagine  
My dream world  
Is a long way from here  
Through the mountains, through the earth  
Through the oceans, through your heart

So many years  
Trying to break free  
Trying to understand, why?  
Fight

Long way from here  
Do it without fear  
Trying to understand, why?  
Fight!
