

Never Give Up the Fight

Avant

The world we live has so many obstacles, you can't control or need
Seems so hard to bear, with challenges everywhere
When standing is tough as you feel alone
Erase defeat and stand strong
Keep writing to this unfinished poem
What's left to do is in front of you
Now take every moment with no excuse
Course has been renewed; it's time to love life

Heaven is calling
Doors revolving
Something you can't deny
There's life on the other side
Don't give up the fight
Never give up the fight
Don't ever give up the fight

Keep on, hold on, have faith, live strong and never give up the fight

The clouds move aside while the rain gives way to the sunshine
Sorrow days... that play in your mind
The doubt grows, the roads seem closed
The petal wilts on a garden rose
But the battles not over, don't let go

In different seasons... trying to find a true meaning
Everybody's saying courage is needed
But you'll believe it, sometimes hard to agree with
But it's the start of the race, be a champ
Don't be afraid to take a step and lead the way

Heaven is calling
Doors revolving
Something you can't deny
There's life on the other side
Don't give up the fight
Never give up the fight
Don't ever give up the fight

Keep on, hold on, have faith, live strong and never give up the fight

This is what's in front of you
When you find out the news, hard for you to handle the truth
Now prepare for it mentally, physically it's straining, but don't let it get
the best of you
Positive through the thick and thin, in and out and in again, struggling with
different moves
But I never been one for giving up
Fight to the very end, cuz it's going for the win

Heaven is calling
Doors revolving
Something you can't deny
There's life on the other side
Don't give up the fight
The Fight (Choir)
Never give up the fight

The Fight (Choir)
Don't ever give up the fight

Keep Going, hold on, have faith, live strong
It hard... but don't ever give the fight
The Fight
Don't ever give up the fight
Keep Going, hold on, have faith, live strong
No, No, never
No, never
Never give up the fight
Don't ever give up the fight

Keep Going, hold on, have faith, live strong, and never give up the fight

When life takes away an autumn leaf
Take time to weep, and live through memories
