

One Way Street

Avant

Taking off my cloths
Walking out the door
Tired of your games
Tired of your show
You want your way
Always got something to say
As much as its hurting me
I'm on a one way street (see me walkin')

Walking on, on a one way street (a one way street)
All alone on a one way street (oh yeah)
Nowhere to go , down this one way street (this lonely road)
Tired of being lonely (ohhh weee)
Walking on, on this one way street (by myself)
All alone, on this one way street (don't want no one else)
Nowhere to go, down this one way street (to help me)
Tired of being lonely (being lonely)

Oh STOP, don't move
Man let me talk to you
It's rules to the game
But you do come back to you
You better, better wait, turn around
And put your bags back down
Your love runs to deep
And there ain't nothing good
On a one way streeeeeeeet (oh yeah)

Walking on, on a one way street (oh yeah)
All alone(all alone) on a one way street (one way)
Nowhere to go , down this one way street (one way, yeah)
Tired of being lonely (tired of being lonely)
Walking on, (ooooohhhh) on a one way street
All alone, on a one way street (one way)
Nowhere to go (nowhere) , down this one way street (nowhere)
Tired of being lonely (a dead end street, is where your headed)

You see, she hurt me (but what did you do)
I tried to be fare (but you were never there)
So i'm walking away (man you better stay)
(you got a good, good girl , don't you let her get away)
I tried my best to make it work
I fed her candy , she fed me dirt
(Ive been down this road to many times
If you don't want no trouble you better change your mind

Walking on, on a one way street
All alone(all alone) on a one way street
Nowhere to go , down this one way street
Tired of being lonely
Walking on, on a one way street
All alone, on a one way street
Nowhere to go (nowhere) , down this one way street
Tired of being lonely [repeat 1x]
